DevOps
SERVICES
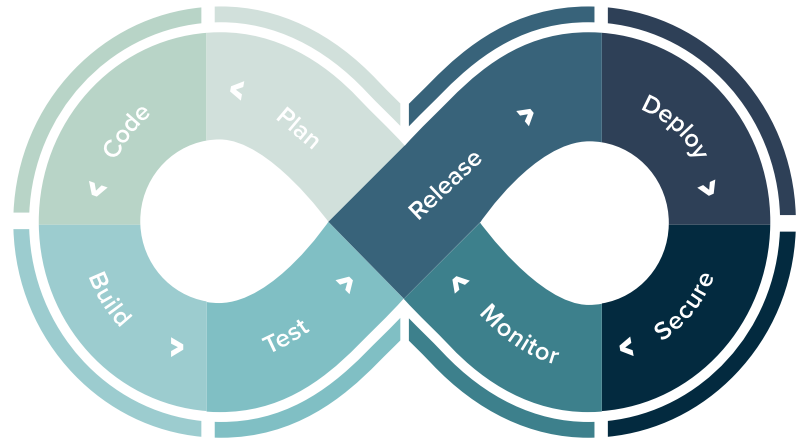

Technology is changing how we live, how we operate businesses, and how we deliver value for our companies and its customers. SaaS, IoT, cloud, mobile, and other technologies continue to drive innovation. In a fast-changing technical world, IT organizations that innovate and quickly adapt to change are the ones that succeed.

Agility and experimentation are necessary components to unlock business value in this new edge-to-cloud world. As you embark on your digital transformation initiative and focus on delivering more value to your customers and stakeholders, you need a DevOps approach that enables faster code delivery in a secured and safe manner and avoids issues along the software release cycle.

THE neway. SOLUTION

Neway's experienced DevOps team helps you assess where you are in your DevOps adoption journey and helps you develop and implement a strategy going forward. Our mission is to create a solid base for your DevOps infrastructure, managed by our team, with streamlined support and maintenance. We aim to reduce your time to market while maintaining a cost-effective secure and stable service deployment.

BENEFITS OF THE NEWAY DEVOPS SOLUTION

The Neway DevOps service can benefit your organization in several ways including:

Cost Optimizations

O Our rich experience in analyzing and optimizing cloud environments cost means the highest ROI for you. We have reduced our customer's infrastructure costs by 25 percent without impacting the business.

Efficiency

O **MONITORING** – Continuous monitoring of your cloud infrastructure and applications ensures regular performance optimization and cost control.

O **APP MODERNIZATION** – Our experience in migrating legacy applications to cloud-native solutions enable you to scale your operation as you grow.

O **CI/CD** – The pipelines we've created build, test, and deploy applications, helping you to deliver working software to users quickly and securely

O **SECURITY** – We are experienced in improving the security posture, ensuring compliance, and always following the principle of least privilege to ensure everything has the minimum permissions required to fulfill its role.

O **AUTOMATION** – We automate your software release cycle, helping you to write pipelines, test, monitor, alert, and more, resulting in a reduced error rate and scalable pipelines.

O **INFRASTRUCTURE AS A CODE (IaaC)** – Our experience with multiple IaaC tools, such as ARM/Bicep/Terraform/Deployment Manager/CloudFormation helps you maintain environments with hundreds of machines.

O **CONFIGURATION MANAGEMENT** – We use Ansible and Puppet to help you align configurations, improve efficiency, and remediate manual changes in thousands of servers' environments.

Expert Guidance

- **CLOUD CONSULTING** – Our experience and familiarity with the intricate details of multiple cloud providers allows our certified DevOps team to help you achieve your business goals fast and securely.

- **KUBERNETES CONSULTING** – Kubernetes is an extremely powerful tool for applications but managing a Kubernetes cluster efficiently can be complex. Our experienced team has securely managed clusters with thousands of pods and hundreds of machines while keeping costs low using auto-scaling and spot instances optimizations

In addition to project implementation, Neway's Cloud Managed Services offering enables your organization to unleash the power and value of your cloud investment. We provide support, monitoring, management, optimizations, and proactive advisory services for your entire cloud environment.

THE **neway.** ADVANTAGE

Why Us?

- Experienced engineering team which tackles DevOps challenges at a high scale

- Neway will help you streamline your subscription, maximize your entitlements, tap into funding opportunities, and provide cost-saving recommendations

- Experienced in multiple cloud providers — AWS, GCP, Azure, as well as with multi-cloud environments

- We enhance your DevOps journey by using our proven expertise to remove obstacles in multiple technological areas

- Our training programs and cloud solutions enable your cloud team to properly support and innovate your DevOps environment

- Our team values education and we regularly update our certifications to keep up with today's technical changes

The neway. ADVANTAGE

About Neway Technologies

Established in 2004, Neway Technologies provides unparalleled expertise across the Microsoft platform on a global scale. Our solutions incorporate delivering measurable business outcomes through innovative solutions leveraging Microsoft technologies and infrastructure solutions, both on-premises and in the cloud, including Security, Microsoft 365, Azure, Teams, SharePoint, and more. Our customers represent a broad range of industries including technology and communications, manufacturing, finance, government, and defense.

With your critical applications and operations running on the Microsoft cloud, you need a partner, like Neway, who is 100% dedicated to the platform.

- Microsoft Tier 1 Cloud Solution Provider (Direct)

- Azure Expert MSP

- Microsoft Advanced Specializations:
  - » Modernization of Web Applications to Microsoft Azure
  - » Adoption and Change Management
  - » Calling for Microsoft Teams
  - » Meetings and Meeting Rooms for Microsoft Teams
  - » Threat Protection
  - » Windows Virtual Desktop
  - » Information Protection & Governance

- Access to Microsoft funding programs

- FastTrack Ready Partner

- Customized solutions through modular managed services

- Insight into the Microsoft roadmap to help you effectively plan for upgrades and enhancements

- Expertise in Microsoft licensing and subscriptions to help you optimize your entitlement and reduce your overall spend

- Comprehensive architecture, design, deployment, management, and adoption solutions
