MULTI-CLOUD

SECURITY PLATFORM

As more and more organizations migrate workloads and applications to the cloud, the need for an effective, highly secure cloud foundation and zero-trust security model is more critical than ever. Neway specializes in helping organizations optimize their security posture through a Multi-Cloud Security Platform built in Azure that encompasses security controls, policy enforcement frameworks, and threat intelligence to protect against rapidly evolving threats.

Neway will help your organization assess, develop, deploy, and optimize your cloud security architecture including:

- Develop, design, and implement a data driven information security control and policy enforcement framework that reflects scalability across Azure resources
- Assess the cloud reference architecture, capabilities and controls
- Conduct a security assessment to map current state to future state in terms of security posture and compliance
- Develop and implement a Security Controls and Policy Enforcement Framework
- Establish, deploy, and optimize an Azure Security Benchmark that provides prescriptive best practices and recommendations to help improve the security of workloads, data, and services on Azure in areas including:
 - ✓ Security operations and network protection
 - ✓ Identity and access management
 - ✓ Data protection
 - ✓ Asset management
 - ✓ Logging and threat detection
 - ✓ Incident response
 - ✓ Posture and vulnerability management
 - ✓ Endpoint security
 - ✓ Backup and recovery
 - ✓ Governance and strategy

To enhance your security profile across different cloud providers and your on-premises environment, Neway can implement a full complement of Microsoft tools including:

Azure Arc

Azure Security Center

Azure Defender

Azure Sentinel

Azure Firewall

Azure Front Door

Cloud App Security

Azure AD

The neway ADVANTAGE

About Neway Technologies

Established in 2004, Neway Technologies provides unparalleled expertise across the Microsoft platform on a global scale. Our solutions incorporate delivering measurable business outcomes through innovative solutions leveraging Microsoft technologies and infrastructure solutions, both on-premises and in the cloud, including Security, Microsoft 365, Azure, Teams, SharePoint, and more. Our customers represent a broad range of industries including technology and communications, manufacturing, finance, government, and defense.

With your critical applications and operations running on the Microsoft cloud, you need a partner, like Neway, who is 100% dedicated to the platform.

- Microsoft Tier 1 Cloud Solution Provider (Direct)
- Azure Expert MSP
- Microsoft Advanced Specializations:
 - » Modernization of Web Applications to Microsoft Azure
 - » Adoption and Change Management
 - » Calling for Microsoft Teams
 - » Meetings and Meeting Rooms for Microsoft Teams
 - » Threat Protection
 - » Windows Virtual Desktop
 - » Information Protection & Governance
- Access to Microsoft funding programs
- FastTrack Ready Partner
- Customized solutions through modular managed services
- Insight into the Microsoft roadmap to help you effectively plan for upgrades and enhancements
- Expertise in Microsoft licensing and subscriptions to help you optimize your entitlement and reduce your overall spend
- Comprehensive architecture, design, deployment, management, and adoption solutions
